

TWELVE OAKS CATERING

Catering and Food Service

freshness, good nutrition and variety

Dear Parents,

Twelve Oaks Catering is proud to continue our partnership with **The Highlands School** to provide catered lunches for students, faculty and staff. For those of you new to the school, we are a full service catering company that has been specializing in educational catering since 1989 and currently partner with many other charter and private schools throughout Dallas and its surrounding communities.

LUNCH service for the upcoming school year is \$3.45 for a full lunch (entrée, grain, vegetables and fruit) and \$0.50 for a choice of fat-free chocolate milk, 1% milk, 100% fruit juice or bottled water. When we plan our balanced menu, one that meets or exceeds all State & Federal nutritional requirements, we do so with the notion of providing a variety of options that students actually like to eat! Our lunch menu offers three (3) entree selections daily that will always include a non-meat entrée. Twelve Oaks Catering commits to serving, not only foods that meet our tenet of **freshness, nutrition and variety**, but also address our society's new trends toward "simpler" foods. This includes foods that are void of excess fats (including trans-fats), excess salt, high fructose corn syrup, and just generally overly processed ingredients. In an effort to provide a unique and interesting school menu, Twelve Oaks offers as many 'scratch-made' entrees as possible, fresh fruits & vegetables daily and a large selection of fresh-baked whole & multi-grain breads.

The lunch program will be multi-faceted.

For PK-3rd grade: Parents will be provided with a monthly menu for pre-ordering. The menus will be available by the second week of the month and orders will be due the last Wednesday for service the following month. Lunches will be individually sealed for easy pick up.

All PK-3rd grade students wishing to purchase lunch MUST fill out the pre-order menu.

For our 4th – 12th graders: We use a debit account system. On-line lunch payments can be made through our partners at the DRX website. You can log in at https://login.drxsoft.com/DRX/online/ol_login.php. This lunch account software offers online viewing of accounts, ability to add money, and many other features to help monitor and control your child's cafeteria account. You may also send money (check or cash) to the school for your child's lunch account. This money is recorded for purchases of our nutritious healthy food, prepared fresh daily. We also offer a large variety of additional a la carte items (think: fresh baked bread sandwiches and other fresh baked goods, fresh veggie and cheese & crackers trays, whole grain cookies, etc) and beverage options that meet all current USDA school guidelines in terms of calories, sugar, sodium, etc. Prices for a la carte range from \$0.75 to \$2.00. We also offer a "Chef Selections Menu" **once a week** that attempts to introduce **The Highlands** community to foods and flavors from around the globe.

Note: If sending monies to the school, any "change" from the purchase will be applied to the student's lunch account.

The school code for grades 4-12 at The Highlands is **tochigh** (all lowercase) and your email will be your user I.D.
You will create your own password.

We ask that all new students fill out the lunch account application form that can be found at [Lunch Room Application](#). Emails can be directed to info@twelveoakscatering.com

We would like to thank you for allowing us to be part of your child's educational experience and we look forward to a great 2016-2017 school year!! – Twelve Oaks Catering
